

# AI The new generation of ice cream masters

## Robot Sundae Ice Cream Kiosk

Won the three top professional quality certificates of EU CE, US FCC, China 1S09001  
70+ national patents / Outstanding team of Creator China /  
National high-tech enterprise / Export 70+ countries

# One set of equipment=A Superior Ice Cream Shop !

## Natural born internet celebrity fully transparent visualization!

Unique Saint's Edition! Anno's Next Generation AI Holy Generation Ice Cream Master - Closed Robot Ice Cream Selling Pavilion, One Click Intelligent Production, the Next Trend in the Ice Cream Industry! Mobile vending booth, occupying less than 2 square meters, with powerful functions; One click ordering, fully intelligent operation of the robotic arm, visualized process; Simple design, eye-catching tool; Rich in flavors, original puree, 6 types of jam, 2 types of fruit shreds, over 20 different flavors, customizable with a wide range of ice cream flavors and customizable combinations! Self service ordering operation, multiple payment methods; 24-hour fully automatic cleaning, preservation, sterilization, safe and hygienic, fast production, 30 seconds to feel the cool summer, enjoy delicious food immediately!

### DETAILED PARAMETERS

model	RR-C-SJAN01-01
size	L1500mm * W1300mm * H1900mm
Equipment weight	600kg
Number of robotic arm axes	Six axis robot
Sauce flavor	6 types of jam
Small fruit chips	2 types of broken fruits
Create flavors	20+types
cup-shaped	200 ml
Cup caliber	90mm
Cup bucket capacity	200-300 pieces
Cup dropping machine	2
Ice cream cone	12 L+30L
Whole machine power	Peak 3500W
Advertising machine size	27 inches
Single order screen size	21.5 inches
run time	365 days 24 hours continuous operation
Can be made with a single addition	200 cups
Payment method	China supports WeChat, Alipay, etc,Payment methods such as card swiping, paper currency, and coins can be provided abroad.
Backend system	Multi dimensional data management
Formula matching system	Intelligent formula matching and adjustment
Intelligent reminder	Out of stock reminder, fault reminder
Product settings	PC and mobile backend management
Remote control	Mobile remote monitoring

#### Quality Assurance for Robot Manufacturing

Mechanical intelligence, stable taste and fast production, Program precise control; Contactless production, Food safety is guaranteed, Efficient and intelligent; Standardized production of robots, Fully automated production, multi-level taste enjoyment

#### Scan the code to place an order quickly and conveniently

Support touch operation, scan QR code to place orders, WeChat and Alipay payment are supported in China, Foreign countries support card swiping, coin and paper currency, And electronic payments, etc.

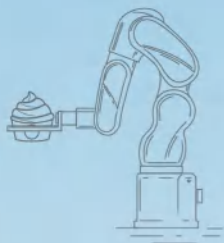

#### Diverse flavors available for customization

Unique sundae ice cream is fresh on the market, Ice cream puree sauce can also be made according to Adjust and customize popular flavors, Change as needed, based on the scenario and customer needs, The appearance and color of the product can be personalized and customized.

#### 24-hour operation to reduce costs and increase efficiency

Robot production, integrated process Exemption from traditional physical ice cream shop site selection, High expenses such as labor, saving costs, The return is more significant. 24 hours a day throughout the year, Ensure business hours.

## Detailed Advantage

### Mechanical intelligence stable production

Fully mechanized on-site production, stable taste, and fast production; Multi-module collaboration ensures food safety! Diverse flavors, rich and mellow taste, experience the taste buds of the new generation!

### Fashionable appearance eye-catching

Flashing lights, cool robotic arms, minimalist design, the entire process of ice cream making can be seen at a glance, creating a novel experience that attracts crowds to gather and take photos! New generation eye-catching artificial content with internet celebrity attributes.

### Independent small material area

Safe and hygienic, independent small ingredient area, equipped with various jams, diverse flavors, and support for customization! Being able to accurately mix raw materials according to customers' specific preferences, reducing waste. Fully enclosed workspace ensures safe and reliable ice cream production!

### Scan the code to place an order convenient and fast

It is equipped with a large screen, single screen, touch operation, code scanning payment, WeChat Alipay and other payment methods in China, and mobile card, credit and business and other payment methods in foreign countries, which are convenient and fast!

### Unique flavor of sundae ice cream

The ice cream movement adopts a fully enclosed compressor, and the mixing tank adopts a sandwich intelligent "3D" low direct cooling design, which has the advantages of low energy consumption, large cooling capacity, and shorter starting cooling time. The first batch of discharge is rapid.

## Detailed Advantage

### Wide range of mobile and flexible scenarios

Equipped with universal wheels, it can move flexibly. Can be applied to various scenarios, such as airports, subway stations, pedestrian streets, shopping centers, schools, canteens, and various other places where people gather.

### Stylish appearance that catches the eye

Minimalist style, enclosed pavilion design. Extremely aesthetically pleasing; Ice cream freshly made, You can see the process of making and adding ice cream at a glance. What you see at a glance is a firsthand experience.

### Value added advertising drainage marketing

Equipped with a large screen advertising machine. Can play advertising menus and other marketing content. We can also provide value-added advertising services: Publish product advertisements on LED screens, increase the economic benefits of equipment.

### Intelligent management data analysis

Powerful backend management system, Sales profit income and cost backend system. Clear and traceable data, convenient management. Flexible management of product types, images, and prices.

## BACKSTAGE MANAGEMENT PLATFORM AND SYSTEM

### SELF-DEVELOPED BACKGROUND SYSTEM

A powerful backend management program with functions including device management, order management, product management, data center, inventory management, operation records, warning notifications, and line management. Help you better manage and adjust.

1

#### Inventory management

Inventory Inquiry, Inventory Statistics, Change Detail, Inventory History, Production Records

2

#### Machine management

Store overview, business trend analysis, merchandise sales statistics, store sales summary, store payment summary

3

#### Data center

Daily data, cash receipts and disbursements, member profiles, member consumption analysis, merchandise sales and inventory reconciliation, financial operating cost analysis, turnover and gross profit

4

#### Alert notice

Real-time reminder of lack of material, real-time reminder of failure wechat, SMS or email reminder, control the machine at any time.

5

#### data center

Product information, product classification, product settings, sorting management, taste management, raw material configuration, and product price adjustment

6

#### Order management

Inventory inquiry, inventory statistics, change detail inventory history, products production records

7

#### Record of operation

Advertising and marketing, providing materials and plans, Random instant discounts, limited time offers, Pay deposit coupons to increase customer flow

8

#### Route management

Different venues, different operations Online revenue is automatically settled to bank card Reduce manual errors Save offline transfer costs

# NEW BUSINESS/NEW TREND RECONSTRUCTING THE CHAIN ICE CREAM FORMAT

## Chain ice cream pain point

- Large chain labor is difficult
- rich category training is difficult
- fatigue strength is difficult to increase quality assurance
- chain line labeling replication is difficult
- manual control of food safety is difficult

## Robot ice cream machine advantages

- 7\*24 alternative manual operations
- one-key upgrade, standardized low in the back ground
- High efficiency and accuracy, sensitive and consistent
- modular configuration and full service coverage
- fully automated food operation with non-contact
- Unique Sundae Ice Cream sells at a higher price and pays for itself faster

## Investment Return Comparison

	Traditional ice cream industry	Robot Anno ice cream sundae shop
Opening cost	\$50000 - \$80000 decoration cost is high and investment is large	\$15000 - \$18000 No need to decorate, can be moved, no talk about the risk of peak season
Labor cost	Professional ice cream maker, \$2800 per month	700\$ per month, one person can manage multiple devices
Rent	Covers an area of 10m <sup>2</sup> -50m <sup>2</sup> , high rent	Covers an area of 2 m <sup>2</sup> to 3 m <sup>2</sup> , only requires 10% to 20% of the traditional store
Product quality	The skill, mood and state of the employee can all lead to deviations in taste appearance	Unified process standards, taste and appearance remain consistent
Product efficiency	1-2 minutes, novice skilled efficiency gap is large, the output of substandard products need to be reworked	30-60 seconds, efficient and stable
Opening hours	8-10 hours	24 hours
Monthly profit	It sells 200 cups a day and makes a monthly profit of about \$1700	It sells 200 cups a day and makes a monthly profit of about \$4200

## Single cup cost comparison: low investment and high return

	The investment in ice cream stores is relatively large	The investment in Anrol's robotic ice cream machine is relatively small
Material cost	Around 1-2 RMB (high loss and waste)	Around 1-2 RMB (accurately crafted)
Manual allocation	Around 1-2 RMB	Around 0.1 RMB
Rent and utilities	About 4 RMB	About 0.5 RMB
Depreciated maintenance	About 2 RMB.	About 0.5 RMB
The service life of the store	2-3 years (It gets old in a year, It will break in two years, It needs to be torn down and redecorated in three years)	10 years
Total cost	Minimum of 8 RMB(At Chinese market prices)	Around 3 RMB(At Chinese market prices)
Disadvantage	Employees can't remember, many errors and mistakes, serious waste, low return on investment, unstable products, food safety hazards	Stable production, stable and excellent taste, efficient service standards, no waste and no loss, high return on investment, and food hygiene.

## SELF-DEVELOPED CORE PATENTS

National High tech Enterprise Robot Arm and Robot Smart Retail Product Source Factory More than 70 core patents with independent intellectual property rights and product quality management system certification

### Customer service hotline support:

Official website customer service, WeChat official account, WeChat group, after-sales telephone and other multi-channel after-sales support.

### Software support:

The software supports remote operation and software upgrade services, which can timely detect problems and hidden dangers in use, complete synchronous updates of the device, and ensure that the device has the latest functions and optimal performance.

### Hardware support:

Core components can be replaced free of charge during the warranty period, with video or text guidance for replacement, and can also be returned to the factory for repair; Additionally, detailed after-sales videos and user manuals are provided for guidance.

### Training support:

Support factory training or training through various forms such as video, conference text, and voice, Understand the operating principles, usage methods, and maintenance of the equipment.

### Maintenance warranty:

Promise one-year warranty and lifetime maintenance; At the same time, various maintenance accessories are configured to ensure that faults can be quickly resolved in the first time.

### Technical expert support:

Technical experts provide real-time online answers and problem diagnosis, while after-sales engineers provide one-on-one service to help users quickly locate faults, maximize equipment efficiency, and ensure worry free after-sales service.
